E.A.G.L.E. Workshops

Invitation to 2N/3D Workshop for Innovative Research/Business Development

"Let's Create Your Original Theory from Literature Journey!"

Innovative research activities or business developments would require new theory or new framework to solve a problem.

"How to create original new theory or new framework, which is the goal of research?"

Prof. Dr. Rahinah Ibrahim, who graduated with a PhD, from Stanford University, USA, had been challenged and produced a solution. The E.A.G.L.E. (Excellence Accelerator for Grounded Learning Environment) Program which is developed by Prof. Dr. Rahinah, navigates you interactively and visually using unique techniques and tools.

EW-2 E.A.G.L.E. WORKSHOP 2 - DEVELOPING THEORY FROM LITERATURE is a practical workshop. Participants of the E.A.G.L.E. Program continue to learn through lectures and exercises, in creating your own theory framework from literature review.

This workshop is instructed directly by Prof. Dr. Rahinah Ibrahim, implementor and expert trainer of E.A.G.L.E. Program.

[EW-2] E.A.G.L.E. WORKSHOP 2 - DEVELOPING THEORY FROM LITERATURE	
This workshop consisted of 2 night 3 days residential course From 9 August 2019 (Friday) 3 pm to 11 August 2019 (Sunday) 3 pm	
Venue: Tamanagayama Information & Education Center/ Smile Hotel Tamanagayama 2-5-1 Suwa, TamaCity, Tokyo, 206-0024 Japan Access: 7 min walk from Keio line or Odakyu line Nagayama Station	
Participation Fee: 78,000JPY	Participants: max 15 person

Organizer ：Healthcare Research Inc., Japan
Training ：Grounded Learning (M) Sdn. Bhd.
＊ This training is provided by Grounded Learning (M) Sdn. Bhd under licensing from Universiti Putra Malaysia, and operated by Healthcare Research Inc.

Course Synopsis

Participants will have taken the EW1 course prior to joining the course. The literature journey will take you to places of knowledge wonders that your fore-researchers have gone through. Most importantly, it will take you to new potentials, which you have no vision before, and give you a first draft manuscript for journal publication.

The uniqueness of this workshop is that E.A.G.L.E. understands the problem faced by researchers when drafting their own scientific article paper. Through this understanding, the E.A.G.L.E. Program offer in-class structured guidelines on creating theory in just 3 days! Understanding how to utilize literature review and critically reviewing are the most challenging parts of writing the article. This process will end with a precise synthesis called a theory.

The E.A.G.L.E. workshop strengthen theory creation by participants to contribute new knowledge in their own fields. There is minimum requirement to have a novel theory before graduating as a PhD, and that is why this workshop is highly recommended for those who are pursuing Master & PhD degrees. It is expected to benefit Master/ PhD students, and business persons who wants to plan new R&D/business, and challengers of innovation.

Literature Review

There are 4 levels of simple and fast approach in conducting and documenting critical literature review process. Participants will be guided to systematically prepare the critical content and draft their manuscripts according to its increasing complexity. At the end of Level 2, participants will have the first draft for a conference proceeding.

Point of Departure

This E.A.G.L.E. course continues the earlier the Literature Review experience by working with the Point of Departure Tree Diagram tool. At the advanced Level 3 & 4, participants will build and discover their own theoretical discoveries needed for SCOPUS Q3/Q4 manuscript scripting.

First Drafts

Participants will learn the requirements for different type of publications as they go through the structured program. Participants will be given tips on additional requirements to enable a SCOPUS Q3/Q4 manuscript to be upgraded for SCOPUS Q1/Q2 submission. The expected outputs of this course are a completed conference proceeding manuscript and a first draft manuscript for a SCOPUS Q3/Q4 journal.

Trainer and study materials

Prof. Dr. Rahinah Ibrahim is Certified Expert Trainer and lead the course in English.
Dr Mayumi Nomura is Certified Fundamental Trainer and will assist in Japanese.
Workbook is written in English and Japanese.

Schedule

[EW-2] E.A.G.L.E. WORKSHOP 2 – DEVELOPING THEORY FROM LITERATURE		
2019/8/9 (Fri)	14:30 15:00-18:00 18:00-19:00 19:00-21:00	Registration Opening & Literature Review-1 (Coffee Break) Supper Literature Review-2 & Consultation
2019/8/10 (Sat)	7:00 8:30-9:00 9:00-12:00 12:00-13:00 13:00-18:00 18:00-19:00 19:00-21:00	Breakfast Review Conference Proceeding Draft Point of Departure -1 (Coffee Break) Lunch Point of Departure-2 (Coffee Break) Supper Point of Departure -3 & Consultation
2019/8/11 (Sun)	7:00 8:30-12:00 12:00-13:00 13:00-15:00	Breakfast Review SCOPUS Q3/Q4 Manuscript First Draft (Coffee break) Lunch Review & Assessment Closing

Venue:	Tamanagayama Information & Education Center/ Smile Hotel Tamanagayama
	2-5-1 Suwa, TamaCity, Tokyo, 206-0024 Japan
Access:	7 min walk from Keio line or Odakyu line Nagayama Station Fureai

ITEMS TO BRING:
- LAPTOP WITH MICROSOFT WORD OTHER SIMILAR SOFTWARE INSTALLED
- 30 Articles related to your topic of interest (soft copy or hard copy)
  Details will be informed with participant slip.

Confidentiality – for protecting research confidence
- This workshop will be derived from the subject of future research or current researches.

- Please accept that all participants are required to sign the Non-Disclosure Agreement at the beginning of workshop.

Registration process

- **Submit the registration form via website of EAGLE Program Japan.**

  URL www.healthcare-research.jp/eagle-program-japan/

  Registration form is linked from Submit Entry Form".
  Please fill and submit the entry form,
- **Or, please contact [eagle@healthcare-research.jp.](mailto:eagle@healthcare-research.jp) The link to Entry form will be informed.**

Payment instruction

1. Invoice will be sent to registered e-mail address.
2. Please make remittance to indicated bank account.
3. Credit card payment is available via PayPal.
4. Claiming to a Research funds is also available. Please ask when submitting the entry form.
5. After received the remittance, the participant slip will be send via e-mail.

Certification

- The certification by Universiti Putra Malaysia and Grounded Learning (M) Sdn. Bhd will be provided at the closing of course.

Profile Professor Dr. Rahinah Ibrahim, Founder, E.A.G.L.E. Certified Expert Trainer

Senior Professor of Architecture and former Dean at the Faculty of Design and Architecture, Universiti Putra Malaysia (UPM)

- The *Sustainable Design Informatics* research she established focuses on developing theories and emerging computer-integrated applications.
- Ethnographer. Skill to dissect and translate cognitive behaviour based on socio-cultural and environmental context.
- 21++ Intellectual Properties profiled at more than 50 countries.

  2005 Graduated PhD, Stanford University, USA

  2012 Recipient, Top Research Scientists Malaysia 2012

  2013 Recipient, National Academic Award 2013

  2018 Fellow, Leaders in Innovation Fellowship, Newton-Ungku Umar Program 2018/2019

Assistant Trainer Dr. Mayumi Nomura, E.A.G.L.E. Certified Fundamentals Trainer

Representative Director, Healthcare Research Inc.

2001　MBA, Nihon University Graduate School of Business, Japa

2005　Ph. D, Chiba University

2019　Certificated E.A.G.L.E. Foundation Trainer
